Affordable & Meaningful Participation

In this tough economy, even though most families desire to be present on the boat for a memorial service at sea, we are finding that many cannot afford it and are either opting for unattended or are putting the urn on the shelf.

An affordable alternative is available—View the scattering of ashes at sea from a location near the shore at a time and date convenient to you.

- Our families love this service -

Any number of people, one low price—$395.00

- Flexible dates and times to suit your needs—weekends or weekdays.
- Several locations available at well-known landmarks in San Diego, including but not limited to: Hotel del Coronado, Pt. Loma Lighthouse, Sunset Cliffs, Crystal Pier, & our favorite—the Ocean Beach Pier. The best viewing is at the OB Pier because the pier stretches past the legal distance required for scattering ashes at sea.
- More affordable than an attended service—more meaningful than unattended. You are not limited to a certain “number of passengers.”
- Ask us about: Biodegradable Urns | Printed Programs | Biodegradable Wreaths (see photo right) | Harbor Tours | One-on-One Boat & Trailer Handling | Custom arrangements | Attended services with more than 6 passengers

With a view from shore service, You are not limited to a fixed number of people

- Rose petals are included
- We can also have some people on the boat and others on the shore (additional cost)
